INTRODUCTION

This report provides a brief overview of the Bay Area Academy (BAA) activities in its Regional Training Program for the Fourth Quarter of FY 06-07, April through June 2007. Highlights of this report will be shared with members of the Training Advisory Board (TAB), the Bay Area Social Services Consortium (BASSC), county staff development officers, the California Department of Social Services (CDSS), and other interested parties. In addition, each county receives an individual county report and an overall regional monthly report of Academy training and technical assistance service deliverables.

Due to augmentation funding in the amount of \$514,325, the Bay Area Academy was able to increase training services to counties to meet new core training requirements and the needs of newly-hired child welfare workers.¹ Significantly, the total number of training days exceeded the proposed (pre- and post-augmentation) level of 235 days by 12.5 days (to 247.5 days, or 5.3% more than proposed). This achievement exceeded last year's actual total of 183.4 training days by 34.9%. The Academy completed eight (8) core cycles of training, each representing an increased number of training days per cycle. The number of total participants trained was 6,624, up 2,666 from last fiscal year (a 67.4% increase).

The Bay Area Academy did not reach our target of 768 hours of proposed Capacity Building (actual was 624 hours), but that was largely due to counties requesting or needing more training than capacity building services and to increased requests for Regional System Support hours (259.5 hours was provided compared to 192 hours proposed). Additionally, one key staff member who normally provides a significant amount of capacity building services was away for one month in June.

The Academy also assisted with the Tri-County PQCR follow-up meetings for each of the counties (Monterey, Santa Cruz and San Benito) during the 4th Quarter. In April 2007, the Bay Area Academy held the Santa Clara PQCR for probation.

There were meetings in June 2007 as a follow-up to three days of "Undoing Racism" training that generated the commitment to further action. These include quarterly meetings for managers who attended the training to continue the process of looking at county policies and practices and to initiate necessary changes.

As part of the continuing work on non-Big Seven curricula, the Bay Area Academy has been working on completing training outlines, learning objectives, executive summaries, and evidenced-based practice resources for each discrete curriculum. At this time six curricula have been completed and work will continue throughout FY2007-08.

The BAA has developed a detailed plan for bringing in new trainers that includes an application process, reference checks, interviews with BAA training specialists, and observation by staff when they begin training. The BAA also had many new trainers attend the CalSWEC "SO YOU WANT TO BE A TRAINER" series. We have begun using many of these new trainers in our July CORE cycles. There is an ongoing process of evaluation for these new trainers.

¹ For FY06-07 the Y.O.U.T.H. Training portion of the \$514,325 augmentation will be reported separately from the pre-augmentation Bay Area Academy regional data.

The Visitation Summit that took place on May 8th was well attended with representatives from most of the Bay Area region's 12 counties. The summit was planned with plenty of county input and garnered very favorable evaluations.

We have completed an Evidence-Based Practice (EBP) review for three (3) curricula and developed new training outlines that reflect the new standardized learning objectives during the 3rd Quarter. During the 4th quarter three more curricula were completed.

YOUTH Training Project:

For the FY06-07 the Y.O.U.T.H. Training Project provided the following, which met and exceeded all proposed goals (with one exception²):

- Trained/prepared five current and former foster youth (ages 18-24) to develop curriculum. Over a four month period, these youth collectively authored a five-hour curriculum entitled, "*Working with Youth who Challenge You Most.*"
- Produced 10 new training tools (digital stories) by youth from across the state on such topics as juvenile justice, group home experiences, higher education, and loneliness. These digital stories are integral parts of the Y.O.U.T.H. training approach, and have been lauded by child welfare workers as touching, sensitizing, and indispensable in their learning.
- This training is made up of five distinct training modules whose topics were based on feedback from California child welfare workers in trainings over the last three years. The modules include: 1) Adolescent Development and Attachment Theory from a Youth's Perspective; 2) Understanding the Experiences and Needs of Group Home Youth and Youth Involved with the Juvenile Justice System; 3) Restorative Justice Processes and Alternatives to the Criminal Justice System; 4) Innovative Best Practices for Social Workers from a Youth's Perspective; and a 5) Retrospective Learning Exercise.
- At the conclusion of the curriculum development process, Y.O.U.T.H. staff organized and led a Leadership Institute to prepare 12 Y.O.U.T.H. Trainers (in addition to the five Y.O.U.T.H. curriculum developers) to begin delivering the new curricula in various length formats.

Discrete trainings were provided to:

1. Title IV-E students at San Francisco State University
2. Alameda County
3. Sonoma County
4. Los Angeles County (4 trainings)
5. Contra Costa County
6. San Luis Obispo County (2 trainings)

² One training scheduled for Humboldt County was cancelled by the county 1 week before actual training date, two weeks prior to the end of the fiscal year.

7. California Mental Health Advocates for Children and Youth Annual Conference
8. Regional Forum training for Group Home Workers

Total number of Y.O.U.T.H. trainings conducted: 12

Total number of people trained: 407

SUMMARY OF SERVICE DELIVERABLES

The Academy has worked closely with county staff development to implement the regional program plan for its various components. The following is a summary of all regional deliverables FY 06-07. These totals do not include the Y.O.U.T.H. deliverables in our typical reporting format for FY06-07, although they are captured in the section above. The Bay Area Academy will revise its data system to incorporate and integrate Y.O.U.T.H. deliverables for FY07-08.

NUMBER OF PARTICIPANTS: 6,624 duplicated trainees
NUMBER OF PARTICIPANT HOURS: 55,160 trainee hours total (1,435.5 hours of training provided)

PROGRAM COMPONENT I: TRAINING PROGRAM = 235 DAYS PROPOSED – 247.5 DAYS COMPLETED

- Child Welfare Core 135 days proposed 159 days completed as of 06/30/07
- Supervisory 22 days proposed 21.5 days completed as of 06/30/07
- Best Practices 18 days proposed 15.5 days completed as of 06/30/07
- Advanced 60 days proposed 51.5 days completed as of 06/30/07

PROGRAM COMPONENT II: CAPACITY BUILDING HOURS = 960 HOURS PROPOSED* – 624 HOURS COMPLETED

- Capacity Building Hours 768 hours proposed*
624 hours completed as of 06/30/07**
(* The original number of proposed hours was 720, but was subsequently increased to 780 to accommodate county needs. Therefore, the total number of proposed Capacity Building hours was increased to 1,020 hours)
(** Completed Capacity Building Hours are calculated by subtracting the total reported hours minus hours transferred to Regional System Support Hours pool of hours)
- Regional System Support Hours 192 hours proposed
259.5 hours completed as of 06/30/07
Per the allocation plan approved by TAB, this pool of hours was created to be utilized for technical assistance projects that pertain to all or most of Bay Area Academy's twelve counties.

The reports that follow present the status of service deliverables with expanded detail, to include:

- 1) A review of our Capacity Building and Systems Support Hours.
- 2) The approved service deliverable for each program component;
- 3) Workshop titles, their trainers, dates of the training, and number of training days;
- 4) The number of trainees and the resulting number of trainee hours.
