

Linking Services and Strengthening California Families Coordinated Case Planning

Learning Objectives

As a result of this training program, participants are able to:

Knowledge:

Understand that family safety and self-sufficiency are shared goals among agencies, nonprofits and families

Know the components of a strength based services plan, which includes goals & objectives, case reviews, transitions and aftercare services

Understand the statutory and regulatory requirements of Child Welfare Services, CalWORKS, job and employment services and eligibility programs

Skills:

Develop a service plan, which balances family, informal community and formal agency resources and encourages communication between all involved

Tailor services to the uniqueness of a family's needs with the family and other disciplines

Link families with a comprehensive, diverse and community-based network of supports and services in order to achieve family safety and long-term self-sufficiency

Share and promote your county's strategies to coordinating plans, while learning about other counties' approaches

Affective: Feelings and Values

Understand and respect the legitimacy of the other discipline's goals & objectives

Honor the family's expertise and value of involvement in case planning

Value developing a service plan which is family focused, needs driven, community connected and strengths-based
